

Flat Spiral Wire Fan Guards

This high quality range of safety guards is suitable for use with axial flow fans, propeller fans, and centrifugal fans.

The range consists of 13 sizes from $\varnothing 315$ up to $\varnothing 2000$ mm.

The screens are manufactured using mild steel wire and rod, are securely spot welded with centre disc, and electrogalvanized for corrosion protection after manufacture.

They are secured using large flat washers and bolting through the outer two rings of the guard.
